DETAILED ACTION

1. Applicant's after final amendment, filed on 10/21/2005, has been received. As the amendment has put the application in condition for allowance, the amendment has been entered. Accordingly, changes have been made to the title. Claims 1-5, 11-13, and 17 have been amended. Claims 6-10 have been cancelled. Claims 1-5 and 11-17 remain pending in this application.

2. The amendment to the title has successfully overcome the objection to the title, as detailed in paragraph 2 of the Office action dated 8/11/2005.

Allowable Subject Matter

3. Claims 1-5 and 11-17 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Applicant has incorporated previously indicated allowable subject matter from claim 6 into the limitations of claim 1. As stated in the prior Office action, while the structure of the proposed scintillator may be known in the art, the prior art fails to teach or reasonably suggest the use of the Group III nitride semiconductor as a scintillator in a scintillation counter. As such, applicant's disclosure provides a novel and nonobvious improvement over the prior art. Accordingly, claim 1 would be allowable. As the remaining claims depend directly or indirectly upon claim 1, the remaining claims would also be allowable.

Art Unit: 2884

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
